

# Educational Tools for Local Government and Nonprofits

## Learning Modules

Module 1: Participants will learn three forms of governance: *strategic*, *fiduciary* and *generative*

Module 2: Provides a review of legal responsibilities for current board members and new recruits

Module 3: Defines the roles of governance, management and workplace responsibilities

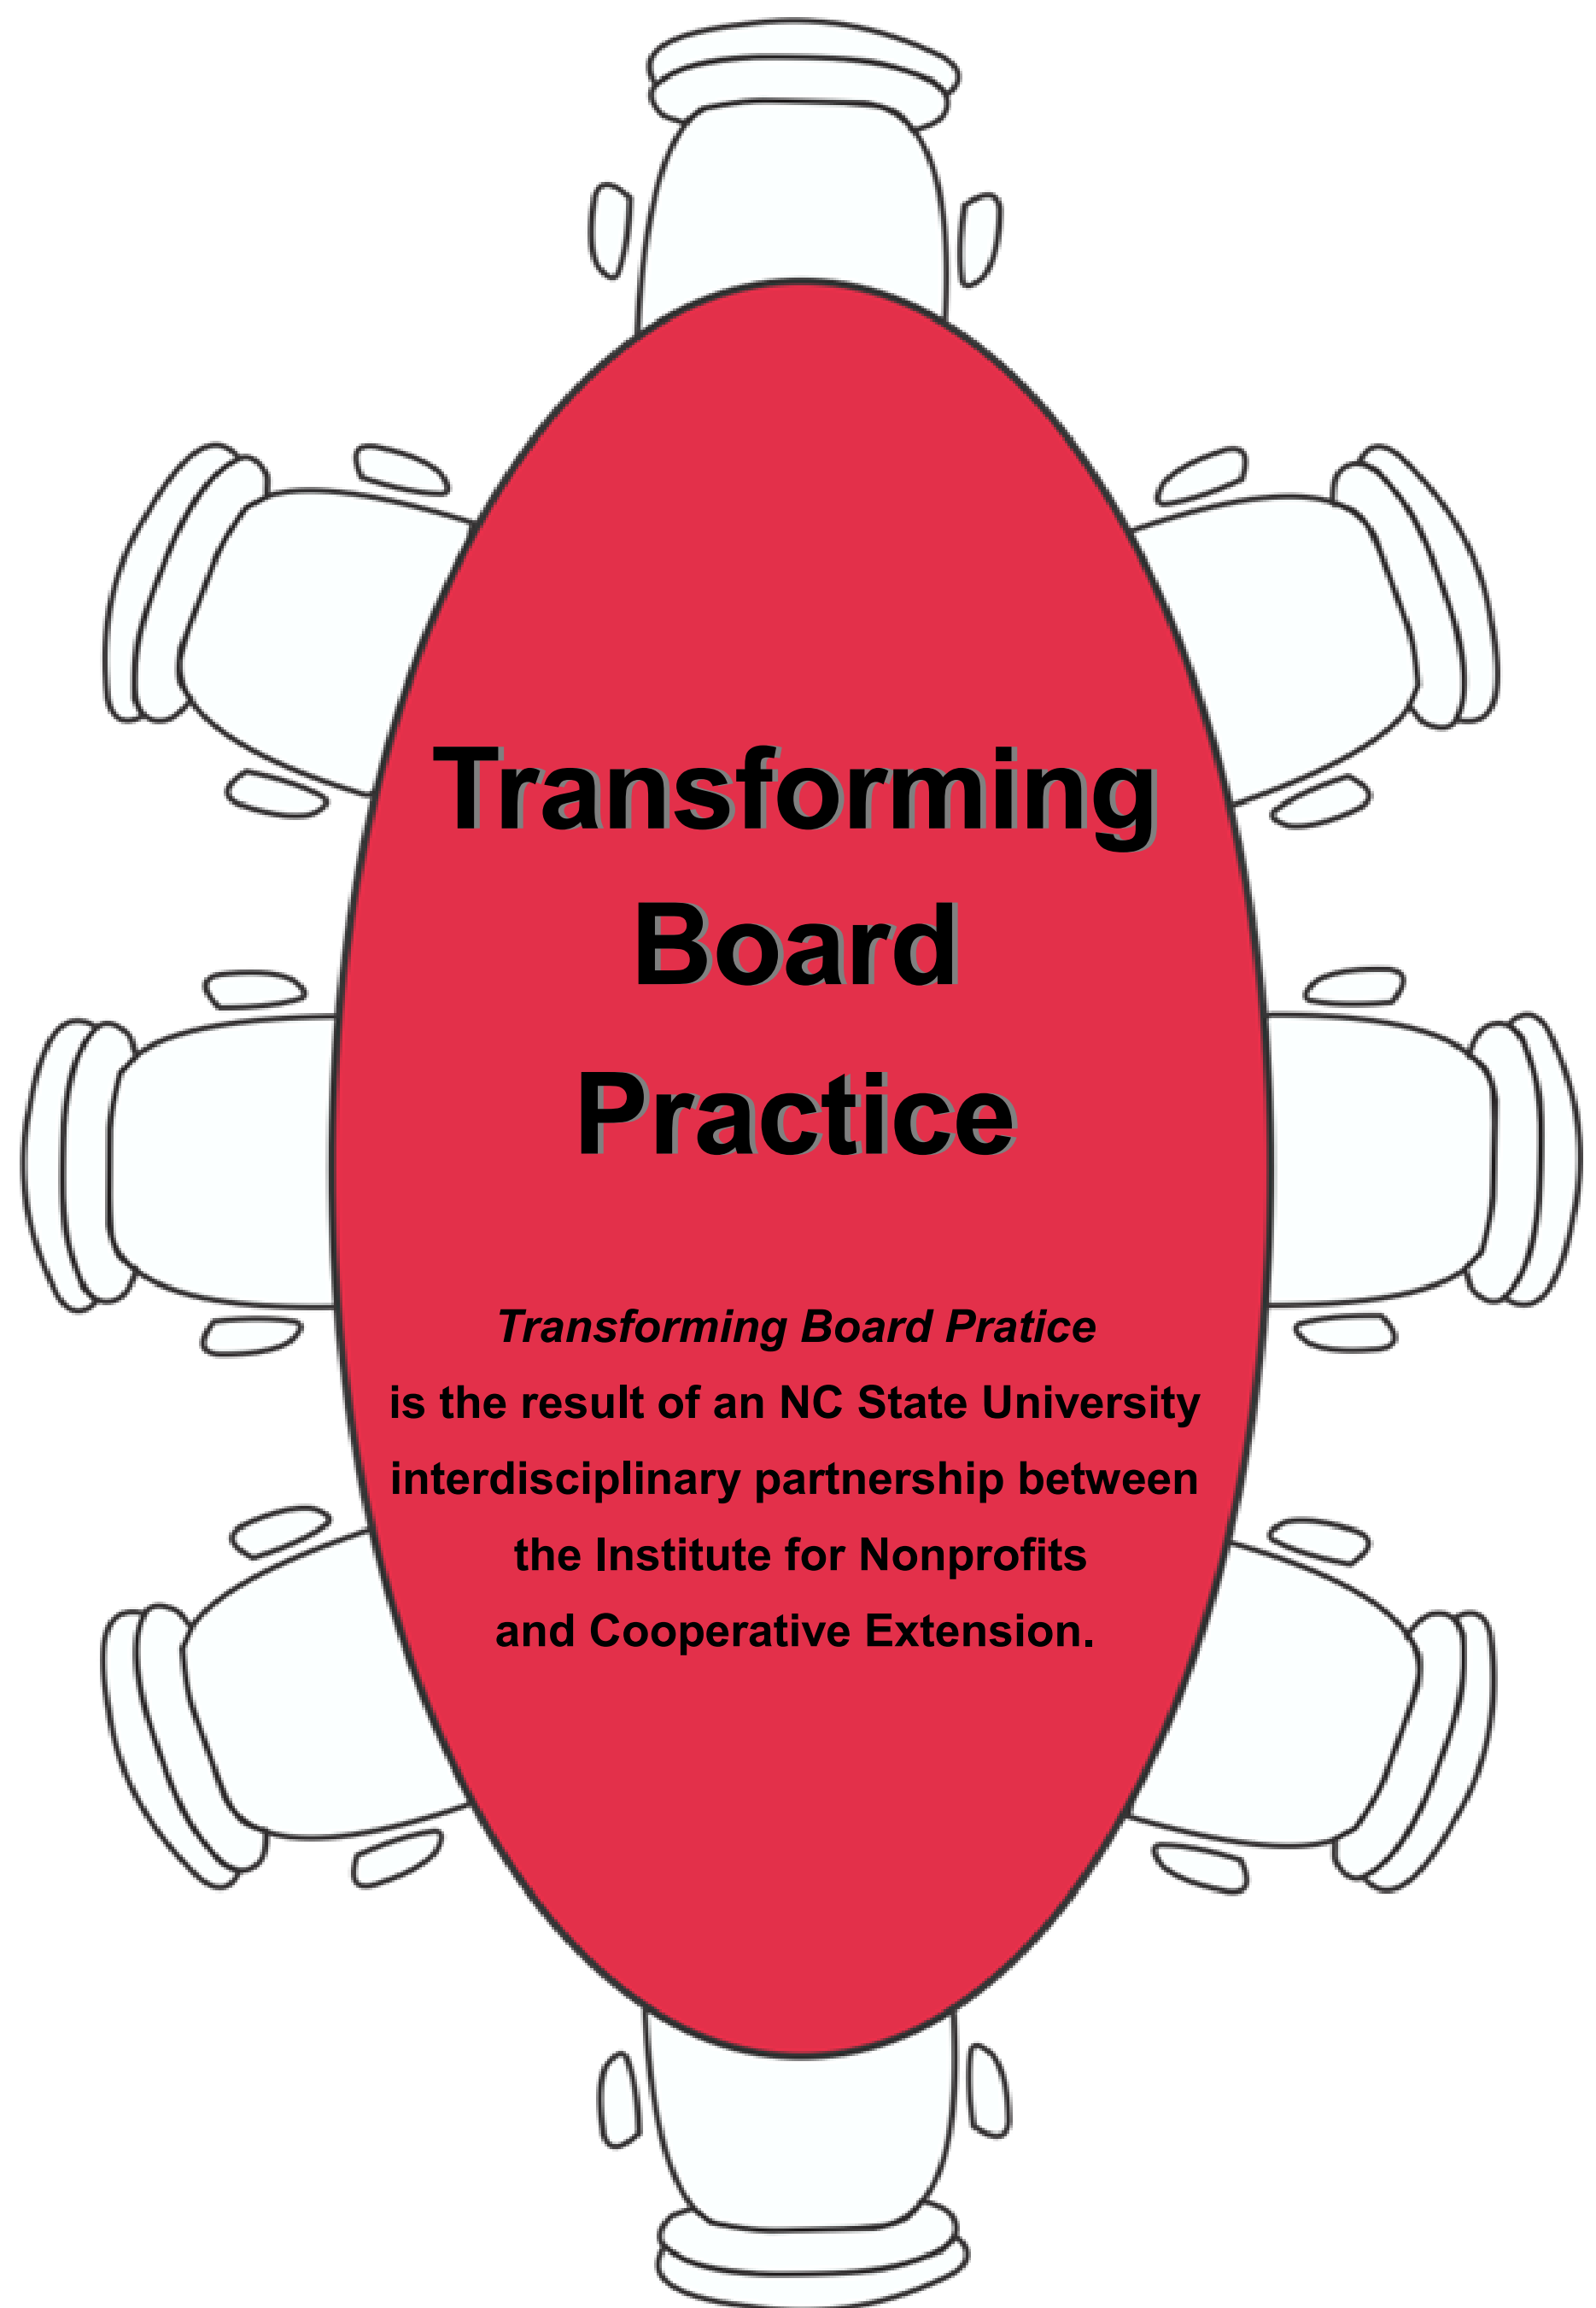

Module 4: Introduces strategies to enhance board engagement

Module 5: Explains *constructive* versus *destructive* conflict, and provides strategies to bring about conflict resolution

Module 6: Participants will identify their organizational vision and values, and learn ways build organizational capacity using those elements

Module 7: Participants will learn about logic models and useful techniques to encourage innovative thinking and imagination in program planning

Module 8: Identifies common meeting obstacles, explains why they happen, and identifies strategies for minimizing them

These PowerPoint training modules are designed to teach the principles of good governing and ethical practice for nonprofit organizations and their Board of Directors.

Each module may be delivered independently of the others; or the modules can be used as a training series for new boards.
